

**ZONING BOARD
DENIES REQUEST
OF MOKENA MAN**

A group of 12 persons from Woodland Circle south of Mokena appeared before the Will County Zoning Board in Frankfort last Thursday evening to protest the appeal for re-zoning of lot 132, at the southwest corner of Wolf road and North Woodland circle.

Mr. Joseph Ashby, owner of said property, asked to have the lot named rezoned to permit the erection of a gas station and restaurant.

This group of citizens represented the interest of the Circle and with Mr. William English as spokesman, presented a petition signed by about 40 property owners of the Circle and immediate vicinity.

Mr. Frank H. Masters, Jr., member and secretary of the zoning board, stated the board denied Mr. Ashby's request after inspecting the property. He stated they found the property to be residential in nature and felt that by erecting a gasoline station and restaurant at that particular point would create a traffic hazard and tend to depreciate the value of the residences in that neighborhood.

Another issue before the zoning board that same evening was the request of Steven Steck in Lincoln Estates. He asked for variation in the rezoning to permit him to build a garage three feet from the edge of his lot on the side, instead of the required 10 feet.

Mr. Masters said the board granted his request because of a water condition at that point where it would be impossible to build a garage at the place in question.

Members of the zoning board beside Mr. Masters are: Elmer L. Cooper, Mokena; James Hennessy, George Albrecht and Ray Robinson, teacher in the Joliet township high school, all from Joliet.

**Kohl's Open House
A Pleasant Affair**

Receiving were the couple's son and wife, Mr. and Mrs. Richard Kohl of Joliet.

Mrs. Joseph Kohl had a lovely orchid corsage and her husband a yellow carnation boutonniere. They were made most happy by the many friends and relatives who called throughout the afternoon and congratulated them. They were glad to be able to visit with each one.

Throughout the afternoon a string ensemble furnished appropriate music.

The room was beautifully decorated with white paper bells and streamers. Quartette tables covered with a white cloth, and centered with a yellow jonquil, were conveniently placed for the guests to be seated for refreshments.

Relatives assisted at the serving table which was covered with a white linen cloth centered with a lovely wedding cake on a revolving cake holder, surrounded by laurel leaves.

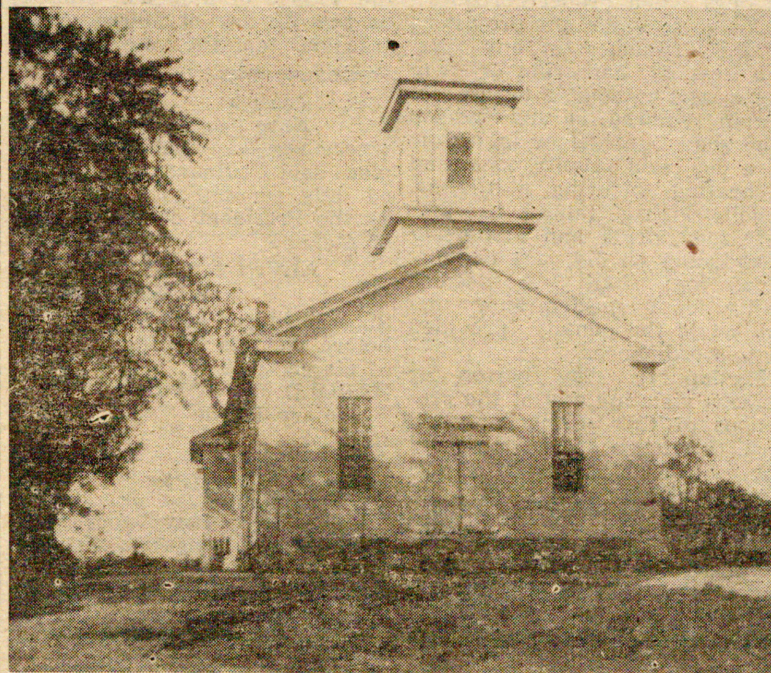

Mr. and Mrs. Kohl would like to thank everyone who attended the open house and who helped in any way to make the day so happy for them. They are deeply grateful to each one, and for the many cards received.

In Loving Retrospect

Above is a picture of the 87 year old Homer Congregational church in Homer township which was completely destroyed by fire Sunday morning, March 2.

The burning of the sacred edifice prompted the expression of the emotions of the entire congregation through the following verses:

FIRE DESTROYED THE LITTLE OLD CHURCH

Many hearts were saddened on that Sunday morn,
When they heard that the little country church was gone.
Destroyed by fire—it was such a shame,
"Now there's no church in Homer," said many who came.

As they looked at the ruins that smoldered still,
There were those who vowed if they had their will,
That another church soon would begin to rise,
But the memories of the old one bedimmed their eyes.

There were happenings there that had meant so much,
All the babies' christenings, weddings, and such,
Banquets for mothers and daughters, fathers and sons,
And chicken-pie suppers, they were work, but fun.

Of course the memories had their share of grief,
And many of the people sought prayer for relief.
For the church was a sanctuary for joy and tears,
It had served it's members faithfully throughout the years.

There were so many things the members had planned to do,
For the Homer Congregational Church was far from new,
It was eighty-seven years old, and the congregation tried,
To improve it always, for this landmark was their pride.

Now they'll have to ask God's blessings elsewhere,
Until the day,
A new church is built and they can come and pray,
And thank God for the helping hands of one and all,
And for the pledges and donations large and small.

Show to Mark
Silver Year**

When the Chicago Flower show opens in the Congress hotel in Chicago Friday, March 14 and continues through the 18th, it will mark the silver anniversary of the Chicago Flower show and all its undertakings, as sponsored by the Garden Club of Illinois.

For months its officers and committees have been spending great amount of time and untiring efforts to make this show outstanding and unusual.

During the past 25 years the Garden Club of Illinois has accomplished many noteworthy events. The first flower show was held in 1927 in the Sherman hotel with 29 clubs responding to help. Other shows were held in the Navy Pier, Stevens hotel, Marshall Field's store and Palmer House.

The beauty of all these shows made one feel as though she was walking in an enchanted garden so grand were the surroundings. And this show is being planned to surpass them all.

It is really a privilege to be able to attend this show.

Re Village Board

By Florence Pitman

Because of several inquiries from readers as to the status of the Mokena village board since John Scarth's resignation, the following report is made:

The board is now functioning with five trustees and the president. At a board meeting held February 5 Mayor Spiess submitted the name of Thomas Powers to be acted on. Powers is a practicing attorney and former adviser to the board. Russell Anderson objected to the appointment of Powers on the grounds that Powers lives on Parker street where two other trustees live.

Trustee Anderson suggested that no action be taken until the March meeting when he would suggest the name of another possible appointee.

At the March meeting of the board Mayor Spiess asked for a report of names to be considered for appointment and Trustee Anderson asked that the matter of appointment be tabled until the next meeting as he had no name to report.

Only the ALL-CROP Harvester has air blast separation. Between cylinder and strawrack, shelled grain and straw are whirled upward in a high arcing blast of air. Kernels are thrown free from the lighter straw and chaff, separating much of the material even before it reaches the big ten-foot strawrack.

This extra separating action saves more grain, beans and seeds — puts more in the bin and more in your pocket. It's another reason why a New ALL-CROP Harvester belongs first on your list for '52.

Lesson for March 16, 1952

YOUTH today has a hard time of it. With bad examples in high places, prevalence of gambling, liquor ads on every billboard and liquor on too many "smart" tables; with divorce almost as easy as marriage and both as easy as whims; educated in elementary schools where it is considered wrong for the teacher to "fail" or punish any one, in high schools that emphasize the body more than the mind, and in colleges where coaches make more than professors and where (as two leading universities recently learned) almost half the student body, it seems, admits to cheating; living in a country where success is measured in dollars and where the Christian church is still in a minority; what chance has a boy or girl to grow up straight and strong instead of weak and crooked?

It Has Been Worse

THE best answer to this question is that youth has always had a hard time of it, yet always there have been some who have grown straight and strong.

If this 20th century is a bad one, what about the first? At that time there was certainly bad example in high places, considering that Nero was the emperor and that many persons actually worshipped that cruel scoundrel as a god.

Gambling was done by the "best" people all over the Empire; liquor was even more a part of "high" society than it is today; as for divorce and marriage, the Roman record was worse than ours; as for education, most young people didn't get it, and most of those that did found themselves fitted for only one occupation: politics. The Christian Church was in a far smaller minority than today.

The Right Friends

YET it was in that bad century that some of the most famous Christian saints and heroes lived. Timothy, Paul's young understudy, was such a man. He had everything against him, but Paul thought well of him, and Paul's standards were extraordinarily high. His life (or what we know of it from the Scripture references to him) had many qualities worth studying.

Let us look at two of the causes for this young man's high character. One was the quality of his friends. He seems to have been the sort of boy who might have gone down fast if he had taken up with the wrong crowd; but a list of his friends as we know them is a list of strong, original, true-blue Christians. He literally knew the best people, not "best" by standards of Roman society but best in the scale of true manhood.

We have a hint, too, that his mother had something to do with this. She "steered" the boy to the right crowd, one suspects—and that was enough.

One of the best things parents can do for their children is to see to it that they run into the right kind of people. This does not necessarily mean the richest or the best educated, but the people with the best kind of character. Youth will grow to be like the older people it most admires; and admiration grows with acquaintance. Tell me who a boy's friends are and I can forecast his future.

Self Control

THE other reason for Timothy's character came from inside: self-discipline, self-control.

Followers of these lessons may wonder why "temperance" has to be dragged in every once in so often. It's not dragged in; we just dare not dodge it. Temperance just means self-control, in general. In particular, one of the drugs—by all odds the most popular drug—that tends to make the users lose self-control, is alcohol. As the proverb has it: First the man takes a drink, then the drink takes a man.

Young people get more than enough urging to become alcoholics. One of the best things one can do for younger friends is to awaken them to the real facts and dangers of all alcoholic beverages.

There is a book, "Fruit of the Vine," by Grace H. Turnbull, (printed by the Lord Baltimore Press and published in 1950 at 223 Chancery Road, Baltimore 18, Md.) which is a mine of facts about liquor—the kind of information you will not get in the advertisements. Young people who learn these things the easy way (by reading such a book, for instance) may be saved the heart-break of learning them the hard way.

BOY SCOUT CAMPOREE IN WILMINGTON

Joseph Esposito, Joliet, was named general chairman of the seventh annual Boy Scout camporee of the Rainbow Council to be held at Wilmington Island, Wilmington, May 23, 24, 25 at the first meeting of the Camporee committee held at Wilmington, Wednesday night. Esposito is at present the Louis Joliet District explorer scout commissioner.

Esposito was introduced by Alfred Levering, Joliet, Rainbow Council Scout Commissioner and 1951 Camporee general chairman. Colored movies of last year's Camporee were shown to the group.

"Forward on Liberty's Team with Abe Lincoln" was assigned as the theme for this year's Camporee. The badge that will be awarded to all boys attending will follow the theme of Abe Lincoln as well as the Saturday night campfire depicting different parts of Lincoln's life. The Camporee theme follows the national Boy Scout Three-Year Program motto which is "Forward on Liberty's Team."

An additional feature of the

pre-Camporee activities will be an essay contest by the Boy Scouts on some phase of Lincoln's life. This contest will be open to all registered boy scouts of the Rainbow council. The essay will be limited in length to 400 words and is due in the Rainbow Council office by April 10. Each patrol entered in the Camporee competition will be given credit for each essay submitted from their patrol. The winning essay will be published in the Camporee booklet and the winning boy scout will be awarded a plaque by the Junior Chamber of Commerce of Wilmington. The essay will be judged by Charles Patmore, Joliet, a local authority on the life of Lincoln.

Again this year, the main stress at the Camporee will be placed upon the "Patrol Method" and the scout uniform. All camp cooking and other activities will be done on a patrol basis. All groups will again be judged on a patrol basis. An explorer scout service post made up of explorer scouts from Rainbow Council will again be on hand at the Camporee to render service. This group will do the cooking for the commissioner staff and district members that are not attached to a unit, will patrol the grounds, run the trading post and handle the traffic details.

James North, Kankakee, will be the Camporee vice-chairman with Esposito. Other committees and their chairmen are as follows: registration, Herbert Norton, Lockport; activities, Clarence Bergeron, Kankakee; explorer post, Theodore Brooks, Manhattan; fellowship campfire, Glenn Shunk, Kankakee; Order of the Arrow, William Hess, Kankakee; firewood, boy scout troop 58, Wilmington; ground preparation, Dan Howerton, Wilmington; utilities, Benjamin Hursh, Wilmington; judging, Fred Meyers, Kankakee; health and safety, J. N. Pearre, Joliet; Red Cross station, Edward Murphy, Joliet; parade, James Spink, Wilmington; photography, Al Pohlers, Joliet; public relations, Rev. Floyd Bluefield, Morris; and clean-up, Junior Chamber of Commerce, Wilmington.

The April roundtable in all three districts will be devoted to the discussion of the Camporee. The next meeting of the Camporee committee will be held at Wilmington at 7:30 p.m. on Monday, March 17.

Enough Steel For 1953 Auto Plates

Secretary of State Edward J. Barrett's office has announced it has received confirmation from Washington that Illinois has been allotted enough steel to take care of at least 50 per cent of its needs for 1953 automobile license plates.

C. R. Hodgman, assistant secretary of state, who made the announcement, added that he also hoped to have a further confirmation from Washington in the next 30 days that additional steel will be allotted to take care of the remaining 50 per cent.

"At least one thing is certain" said Hodgman. "Illinois will have steel for new license plates in 1953. We are now assured of enough steel for at least one plate. And we hope to have enough for two plates. Illinois will not have to use a plug in 1953."

Two inexpensive winter feeding methods—hay alone on drylot and fescue pasture—brought outstanding returns on cattle marketed from the Dixon Springs Experiment Station last fall.

Dear Mrs. Semmler:
I am enclosing a copy of our Coles County School Bulletin which I hope you will find interesting.
My wife, daughter and I certainly enjoy reading the Mokena news in your paper. I want to compliment you on the interesting and timely news items that you publish. You certainly keep the people well informed.
Say hello to everyone for us. My wife joins me in sending our regards to you and all your family.
Sincerely yours,

Editor's note: Mr. Dunn was formerly the principal of the Mokena Grade and High schools

In Vol. 1, No. 1, of the Coles County School Bulletin, Mr. Dunn, who is now Coles County superintendent of schools, tells the reason for its publication; he hopes to make it useful and interesting to the teachers of his county and will include topics about new laws pertaining to teachers, special services offered to schools in Coles county and interesting items on a variety of subjects. Mrs. Dunn is secretary to her husband.

Keep cattle away from loose or peeling paint if it contains lead. It's just as dangerous as fresh paint to the cattle that lick it.

Friends and Neighbors of School District 159:

I was somewhat surprised upon learning I had been approved as a candidate for the school board. I would like to state I do not want the support of any group regardless whether they are non-partisan or not.

While I have a great respect for these people as individuals, as an organized group they and their possible influence in their plan to select a school board of their choice is wrong.

In the years that I have served you on the present board, the education of the child in the most important years of his school life, coupled with the highest caliber of teachers available has been our top objectives.

All that I ask is that you go to the polls and vote, but vote as you wish. You know these candidates. Some of them and a great many of you have spent your entire life-time here. You don't need anyone to tell you whether they can be relied upon, you know. Others like myself came here sometime back. Knowing you like I do, I know you have made it your business to find out about us.

DISC HARROWS
WILL NOT GOUGE IN
ON THE TURNS!

MM model 11A disc harrow turns in as small a radius as any row-crop tractor. Tension springs hold the gangs in a level position so that the harrow penetrates at a uniform depth over its full width. With this construction the harrow is flexible for good work on uneven ground, and one side or the other does not dig in on turns.
Ease of angling is another outstanding feature. A touch on MM's new hydraulic control, called Uni-Matic Power, makes adjustment of disc angle on the go a simple matter.
If your old harrow needs replacing, drop in to see us. We think MM harrows offer you the most in good performance, economy, and dependability.
